PROFILE SUMMARY

Performance-driven Java Developer with 3+ years of experience designing and scaling enterprise-grade applications using Spring Boot, Microservices, and cloud architectures. Proven track record in full-stack delivery, legacy application modernization, and cloud migration (AWS). Adept at optimizing backend systems to drive business-critical workflows in Agile environments.

TECHNICAL SUMMARY

Languages: Java, JavaScript, TypeScript, Python, SQL

Backend Technologies: Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, REST APIs, SOAP Web Services, Microservices Architecture

Frontend Technologies: ReactJS, HTML5, CSS3, Bootstrap, Tailwind CSS, Vite

Databases & Optimization: MySQL, PostgreSQL

Cloud & DevOps: AWS, Docker, Git, GitHub, GitLab, CI/CD Pipelines

Testing: JUnit 5, Mockito, Postman, API Testing

Software Engineering: OOP, Design Patterns, SDLC, Agile, Scrum, System Design

Core CS Fundamentals: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

PROFESSIONAL EXPERIENCE

Java Consultant | Contracted via NTT DATA / Havisoft

February 2026 – July 2026

SAP Labs | Bengaluru, India

- Developing enterprise HR applications within SAP SuccessFactors Benefits and Advances modules using Java and Spring Boot.
- Designing and maintaining scalable RESTful APIs supporting employee benefit workflows.
- Collaborating with product owners, QA teams, and stakeholders to deliver business-critical features.
- Supporting system integrations between SAP SuccessFactors and enterprise platforms.
- Troubleshooting production issues and implementing performance improvements.
- Participating in Agile ceremonies including sprint planning, estimation, code reviews, and retrospectives.
- Contributing to feature enhancements, bug fixes, and application modernization initiatives.

Tech Stack: Java, Spring Boot, REST APIs, SAP SuccessFactors, SQL, Git, Agile

Full Stack Developer | Hexaware Technologies

August 2022 – May 2025

Chennai, India

- Developed and maintained scalable enterprise web applications using Java, Spring Boot, ReactJS, and MySQL.
- Designed and implemented REST APIs enabling seamless communication across microservices.
- Optimized SQL queries and indexing strategies, improving API response times by 30%.

- Led migration of legacy applications from on-premises infrastructure to AWS cloud environments.
- Modernized enterprise applications by upgrading from Java 1.5 to Java 17.
- Developed automated unit tests using JUnit and Mockito, achieving over 85% code coverage.
- Created API documentation using Swagger/OpenAPI.
- Worked closely with cross-functional teams in Agile Scrum environments to deliver releases on schedule.

Tech Stack: Java 17, Spring Boot, ReactJS, AWS, MySQL, JUnit, Mockito, Docker, Git

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science

June 2018 – August 2022

IEC College of Technology, Greater Noida

CERTIFICATIONS

- Microsoft Azure Fundamentals (AZ-900)
- Postman API Fundamentals Student Expert
- React Certification – W3Schools
- Python Programming Certification – W3Schools
